# Exercise 3

Use some of the Design Principles to edit the visualization you've made.

Questions

1) Open up Lab 4. Choose 1 of the visualizations which you believe has an interesting insight that you noticed.
    a) BONUS – Make your own visual and draw some additional insights.

Davie County Surpasses It's Required Job Count
● Sum of Required Job Counts ● Sum of Actual Job Count

2) Using the visual you chose, which Design Principle would you like to utilize to highlight and why?

Text and Tables, this is because I want the audience to read through the main title and statement the realize it's the only instance.

3) Write a statement of what you are trying to highlight / present to the audience.

Among the Top 10 counties with the highest job requirements, Dave stands out as the sole individual to exceed his requirements by over 4000.
